CAVITE STATE UNIVERSITY - GENERAL TRIAS CITY CAMPUS

Bachelor of Science in Information Technology

September, 2022 - Present

- Coursework: Web Development, Data Structures, Database Systems.
-

PROJECTS:

CRUD Pet Information System

Developed a full-featured web app using pure PHP and JavaScript for managing pet records.

- Implemented custom input validation to ensure data accuracy and prevent errors.
- Designed a normalized MySQL database for organized and scalable data storage.
- Troubleshooted and configured local deployment using XAMPP.
- Focused on learning server-side scripting, data flow, and user management.

Car Rental POS System

Developed a point-of-sale web application using procedural PHP and MySQL.

- Streamlined rental transaction flow, reducing mock processing time by 40%.
 - Created a custom receipt generator with real-time calculations using JavaScript.
 - Focused on backend logic, database handling, and simple UI flow.
 - Currently improving layout responsiveness and input validation.
-
